### Pterygot Insects of Afghanistan

A tentative synonymic list of the species known in Afghanistan <sup>1</sup>

Ahmet Ömer Koçak Muhabbet Kemal

**Abstract:** Pterygot insects of Afghanistan. A tentative synonymic list of the species known in Afghanistan (*Results of the Entomofauna of the World, based upon info-system of the Cesa*). *Priamus* (suppl.) 19: 1- 98.

In this study, totally 2456 species are listed in two parts. Synonymous names are arranged chronologically. Range of each species is given as codes. Selected orders with their number of species listed in this article are as follows: *Mantodea* (17), *Orthoptera* (94), *Hemiptera* (42), *Homoptera* (158), *Planipennia* (60), *Lepidoptera* (1649), *Diptera* (188), *Hymenoptera* (55), *Coleoptera* (186).

**Key words:** List, distribution, pterygota, Insecta, Afghanistan.

Information on the pterygot insects of Afghanistan was recently published as 596 species (except *Lepidoptera*). The present number of this group increases to 807 species. This is listed in the first part of the article. In the second part, totally 1649 species of *Lepidoptera* are given. Thus, the total number of pterygots of Afghanistan increases to 2456

---

<sup>1</sup> Previous publication on this subject: Koçak,A.Ö. & M.Kemal,2010, Synonymic and distributional list of the pterygot insects of Afghanistan (*Results of the Entomofauna of the World, based upon info-system of the Cesa*) – 1 . *Priamus* suppl. 18: 240-260.

species. Synonymous names and distributional<sup>2</sup> information are also revised. Selected orders of the *Pterygota* with their number of species listed here are as follows: *Mantodea* (17), *Orthoptera* (94), *Hemiptera* (42), *Homoptera* (158), *Planipennia* (60), *Lepidoptera* (1649), *Diptera* (188), *Hymenoptera* (55), *Coleoptera* (186).

Below, a comparative table between the faunas of neighbour countries is given.

**Table 1** – Number of the species of *Pterygota* of the countries around Afghanistan based upon Info-system of the Cesa<sup>3</sup>. \* indicates that the study at the beginning.

States/Number of species	<i>Pterygota</i>	<i>Lepidoptera</i>	<b>Total / expected</b>
<b>Afghanistan</b>	807*	1649	<b>2456 / 50000&lt;</b>
<b>Pakistan</b>	354*	1035	<b>1389 / 50000&lt;</b>
<b>Tadzhikistan</b>	855*	714*	<b>1569 / 50000&lt;</b>

Stand 4 10 2010

### List of the pterygot species of Afghanistan based upon the Info-system of the Cesa (except Lepidoptera)

In the following list, scientific names of the 807 taxa, recorded in Afghanistan are presented alphabetically. Family names, mentioned in ( ), follow the specific names. Synonymous names are given in chronological order. Range of the species are mentioned as codes in blue colour. Nomenclaturally unavailable names are marked with #. Temporary generic names are given in "...".

## Priamus & Priamus Supplement

ISSN 1015-8243

**Priamus** is the first international serial publication of the Centre for Entomological Studies Ankara (CESA), established in 1981. It appears in volumes at irregular intervals. It includes shorter original articles of the research workers of the Centre, regarding taxonomy, nomenclature, morphology, bibliography, check-list, catalogue of Insects, especially Lepidoptera, as well as papers on faunistic, ecological and distributional researches. The publication languages are Turkish, English, German and Uighurian.

**Priamus Supplement** is the first international, online publication of the Centre for Entomological Studies Ankara (CESA), established in 2006 in accordance with the Publications Rules of the IZN. It appears at irregular intervals as PDF format and announced in the internet site of the CESA. It includes larger original articles and theses of the research workers of the Centre, regarding morphology, bibliography, check-list, catalogue of Insects, especially Lepidoptera, as well as papers on faunistic, ecological and distributional researches. The publication languages are Turkish, English, German and Uighurian.

*Centre for Entomological Studies Ankara*  
(A scientific Consortium)  
(co-operation of research workers for pure-scientific, not commercial purpose)
